

FOR IMMEDIATE RELEASE

## **Monclova Historical Foundation Announced as PastPerfect Software's 7000<sup>th</sup> Client**

EXTON, PA - October 1, 2009: PastPerfect Software, Inc. proudly announces that the Monclova Historical Foundation, in Monclova, Ohio, has purchased the 7000<sup>th</sup> PastPerfect program. As the 7000<sup>th</sup> customer, the Foundation will receive a free first year Annual Support Contract and a package of three PastPerfect training CDs.

In 1997, the Monclova Historical Foundation was founded to save the 1912 Monclova School, which had served the community for 60 years. The Foundation, along with support from the Monclova Township Trustees and the community, renovated the crumbling, but beautiful and structurally sound building. They then decided the structure should be used as a community center to benefit people of all ages. Today many activities are held at the Monclova Community Center including exercise classes for seniors, Girl and Boy Scout meetings, and a YMCA child care center. Banquet and meeting facilities are available for area residents' special occasions and learning opportunities.

Director Mary Kay said that she is excited to get started with PastPerfect. They will use the software to catalog the Foundation's collections which include artifacts from the Monclova School, historic photographs, and a one room 1914 post office with a piano. For more information about the Monclova Historical Foundation, please visit [www.monclovacommctr.org](http://www.monclovacommctr.org).

As PastPerfect Software, Inc. reaches this important milestone, the company wishes to express its gratitude to the museum community. Customers' suggestions and questions have made the software and support team better for more than ten years. PastPerfect Software is committed to continuing to offer affordable, comprehensive and easy to use software for the museum community AND provide the best support in the industry.

For more information about PastPerfect Software, please contact Jennifer Whitfield, Client Services Director, or visit PastPerfect's website at [www.MuseumSoftware.com](http://www.MuseumSoftware.com).

About PastPerfect Software, Inc:

Since its founding in 1996, PastPerfect Software, Inc. continues its dedication and service to the museum and historical collections community by providing an easy to use, comprehensive collections and contacts management software program. With now over 7,000 organizations using PastPerfect worldwide, PastPerfect is the most popular and affordable museum software program on the market.
