Accession #	Use this field to record the accession number for the object, for example, "2004.1". The accession number refers to the collection of objects received from the same source at the same time. If the accession record has been created, the adjoining field will fill automatically with the name of the source. Typically, accession numbers are composed of the year the accession was received and a sequential number denoting the order in which the accessions were received in that year. For example, 2004.1 indicates the first object or group of objects received in 2004.[accessno:c(15)]
